

How to sign up on TAP and connect your Libraesva ESG Appliance

In version 4.3 Libraesva ESG has introduced the new Threat Analysis Portal, where you can analyze the threat data coming from your Esva installation.

These are the steps to sign up on the portal and associate your Esva installation with the account newly created.

Each License can be linked to more than one account.

1. Go to Threat Analysis Portal | Register and fill all required data. After registration you will be sent a confirmation email to the specified address.

The screenshot shows the registration page for the Threat Analysis Portal. At the top, the Libraesva logo is displayed with the tagline "email security virtual appliance". Below the logo, the text "Threat Analysis Portal" and "Register" are visible. A progress indicator shows two steps: "1 Account" (active) and "2 Organization". The registration form includes the following fields:

- (*) Name and email:** First name, Last name, and Email (verification required - use a real address).
- (*) Username:** Choose a unique username, with a [Suggest] link.
- (*) Password:** Between 12-100 characters and Confirm password.

A green "Next" button is located at the bottom right of the form. Below the form, there is a disclaimer: "By registering an account, you accept the Terms and Conditions. Already have an account? Sign in." and a copyright notice: "© Libra Esva, 2018."

2. Login to the Portal Threat Analysis Portal | Sign In with your account
3. Login on your Libraesva ESG with an administrative account and then go to System -> Appliance -> System preferences
