

ESG: attachment not allowed by default

Libraesva ESG does standard filename and filetype content analysis to protect you from insecure attachments.

Below are listed default blocked filenames and filetypes.

If an attachment matches a custom rule from the [Attachment Filters](#) page, these standard checks will be ignored.

Blocked file extensions

.ade	File extension "ade" not allowed
.adp	File extension "adp" not allowed
.ani	File extension "ani" not allowed
.appcontent-ms	File extension "appcontent-ms" not allowed
.appref-ms	File extension "appref-ms" not allowed
.b64	File extension "b64" not allowed
.bat	File extension "bat" not allowed
.bhx	File extension "bhx" not allowed
.cab	File extension "cab" not allowed
.cdxml	File extension "cdxml" not allowed
.ceo	File extension "ceo" not allowed
.cer	File extension "cer" not allowed
.chm	File extension "chm" not allowed
.cmd	File extension "cmd" not allowed

.cnf	File extension "cnf" not allowed
.cnt	File extension "cnt" not allowed
.com	File extension "com" not allowed
.cpl	File extension "cpl" not allowed
.crt	File extension "crt" not allowed
.cur	File extension "cur" not allowed
.der	File extension "der" not allowed
.diagcab	File extension "diagcab" not allowed
.dll	File extension "dll" not allowed
.exe	File extension "exe" not allowed
.fdf	File extension "fdf" not allowed
.grp	File extension "grp" not allowed
.hpj	File extension "hpj" not allowed
.hqx	File extension "hqx" not allowed
.hta	File extension "hta" not allowed
.ico	File extension "ico" not allowed
.img	File extension "img" not allowed
.ins	File extension "ins" not allowed
.iqy	File extension "iqy" not allowed
.iso	File extension "iso" not allowed
.isp	File extension "isp" not allowed
.its	File extension "its" not allowed

.jar	File extension "jar" not allowed
.jnlp	File extension "jnlp" not allowed
.job	File extension "job" not allowed
.jse?	File extension "js/jse" not allowed
.lha	File extension "lha" not allowed
.lib	File extension "lib" not allowed
.lnk	File extension "lnk" not allowed
.lzh	File extension "lzh" not allowed
.mad	File extension "mad" not allowed
.maf	File extension "maf" not allowed
.mag	File extension "mag" not allowed
.mam	File extension "mam" not allowed
.maq	File extension "maq" not allowed
.mar	File extension "mar" not allowed
.mas	File extension "mas" not allowed
.mat	File extension "mat" not allowed
.mau	File extension "mau" not allowed
.mav	File extension "mav" not allowed
.maw	File extension "maw" not allowed
.mcf	File extension "mcf" not allowed
.mda	File extension "mda" not allowed
.mde	File extension "mde" not allowed

.mdz	File extension "mdz" not allowed
.mhtml	File extension "mhtml" not allowed
.mim	File extension "mim" not allowed
.mobileconfig	File extension "mobileconfig" not allowed
.msc	File extension "msc" not allowed
.msi	File extension "msi" not allowed
.msp	File extension "msp" not allowed
.mst	File extension "mst" not allowed
.msu	File extension "msu" not allowed
.oft	File extension "oft" not allowed
.pif	File extension "pif" not allowed
.pl	File extension "pl" not allowed
.prf	File extension "prf" not allowed
.printerexport	File extension "printerexport" not allowed
.ps1	File extension "ps1" not allowed
.ps1xml	File extension "ps1xml" not allowed
.ps2	File extension "ps2" not allowed
.ps2xml	File extension "ps2xml" not allowed
.pscd1	File extension "pscd1" not allowed
.pscd2	File extension "pscd2" not allowed
.psdm1	File extension "psdm1" not allowed
.pssc	File extension "pssc" not allowed

.pst	File extension "pst" not allowed
.py	File extension "py" not allowed
.pyc	File extension "pyc" not allowed
.pyo	File extension "pyo" not allowed
.pyw	File extension "pyw" not allowed
.pyz	File extension "pyz" not allowed
.pyzw	File extension "pyzw" not allowed
.reg	File extension "reg" not allowed
.scf	File extension "scf" not allowed
.scr	File extension "scr" not allowed
.sct	File extension "sct" not allowed
.settingcontent-ms	File extension "settingcontent-ms" not allowed
.shb	File extension "shb" not allowed
.shs	File extension "shs" not allowed
.sys	File extension "sys" not allowed
.theme	File extension "theme" not allowed
.udl	File extension "udl" not allowed
.url	File extension "url" not allowed
.uue	File extension "uue" not allowed
.vbe	File extension "vbe" not allowed
.vbp	File extension "vbp" not allowed
.vbs	File extension "vbs" not allowed

.vhd	File extension "vhd" not allowed
.vmdk	File extension "vmdk" not allowed
.vsmacros	File extension "vsmacros" not allowed
.vss	File extension "vss" not allowed
.vst	File extension "vst" not allowed
.vsw	File extension "vsw" not allowed
.vxd	File extension "vxd" not allowed
.webpnp	File extension "webpnp" not allowed
.website	File extension "website" not allowed
.ws	File extension "ws" not allowed
.wsb	File extension "wsb" not allowed
.wsc	File extension "wsc" not allowed
.wsf	File extension "wsf" not allowed
.wsh	File extension "wsh" not allowed
.xbap	File extension "xbap" not allowed
.xll	File extension "xll" not allowed
.xnk	File extension "xnk" not allowed
.xxe	File extension "xxe" not allowed

Blocked filetypes

self-extract	File type "self-extract" not allowed
---------------------	--------------------------------------

executable	File type "executable" not allowed
ELF	File type "ELF" not allowed
Registry	File type "Registry" not allowed
Installer	File type "Installer" not allowed
