How to manage e-mails from quarantine report message?

PROBLEM

How to manage e-mails from quarantine report message? Which actions can I choose for releasing the blocked emails?

SOLUTION

The Quarantine reports is a summary email that shows blocked email and allows to take the following actions:

- Release: The Email is released from quarantine and delivered to your mailbox.
- Rel & Whitelist: Email is released and added to your personal whitelist.
 All future emails from this sender will be whitelisted.

×NOTE: Now it's possible to customize the quarantine report actions on a per user basis. Click here to see Account Features
