

Email Continuity

Libraesva ESG, from version 4.7, has a complete mail continuity feature.

You can access this feature from the message details.

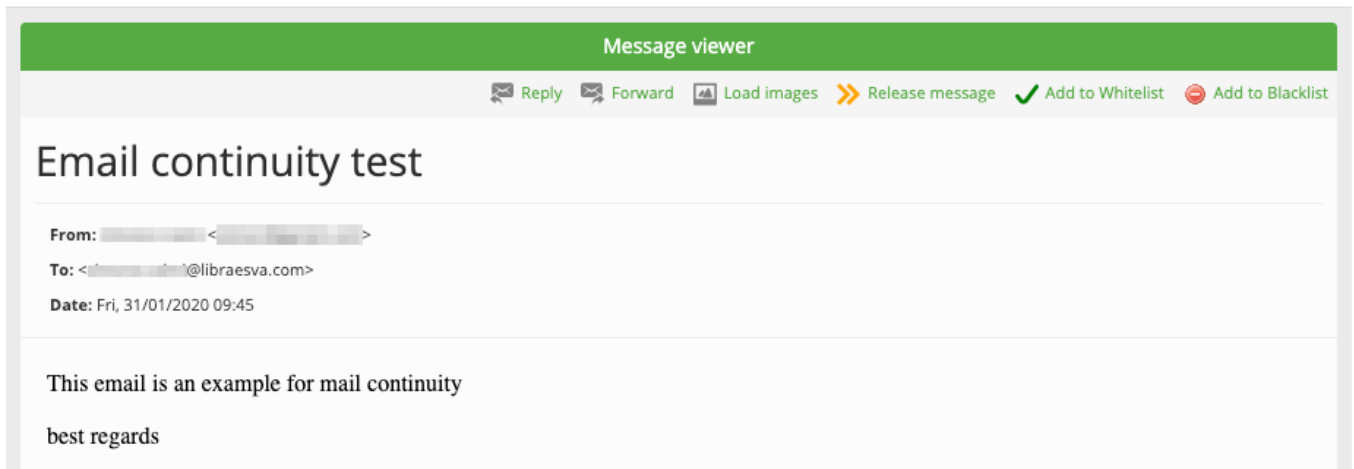

The screenshot shows the Libraesva Email Security interface. At the top, there is a navigation bar with tabs for Home, Reports, Lists, Quarantine, and User Settings. The main content area is titled "Last 30 ACCEPTED Messages (Refreshing every 120 sec.)". Below this title is a table with columns for Date, Time, Sender, Recipient, Subject, Score, and Status. A red arrow points to the first row of the table. The table contains four rows of data, all dated 31-01-2020. The first three rows have scores of -1.67, -3.35, and -1.86, and a status of "Clean". The fourth row has a score of 0.00 and a status of "Whitelist".

	Date	Time	Sender	Recipient	Subject	Score	Status
 	31-01-2020	09:47:07				-1.67	Clean
 	30-01-2020	17:06:50				-3.35	Clean
 	30-01-2020	16:47:06				-1.86	Clean
 	30-01-2020	16:44:30				0.00	Whitelist

Allowed actions are:

- Reply
- Forward
- Load message images
- Release the message
- Add a whitelist
- Add a blacklist

You can fill every field of your new message like in a e-mail client.

You will also be able to compose a new message, clicking on the green pencil button, as shown in the image below.

New Message

From: [Redacted]
