

Apply pending changes button

Libraesva ESG 5.3 introduces a centralised apply button. This button is displayed when configuration changes are pending and waiting to be applied.

All pending configuration changes performed by administrators are collected and applied cumulatively when the “Apply pending changes” button is pressed.

⚡ Apply pending changes

An information popup is also shown in the dashboard when pending changes are waiting to be applied.

i There are pending configuration changes. Please apply them to ensure they take effect.

Administrators can review pending changes in admin area > status > audit logs.

Any administrator can review and apply pending changes performed by any other administrator.
