Why choosing Libraesva Cloud?

These are the advantages of hosting your Email Archiver in the Libraesva Cloud.

	Libraesva Cloud	on premise VM
Hardware resources	Managed by the **Libraesva support team**	Managed by you
Major release updates	Just **ask to support**@libraesva.com to get your appliance updated	Need to take a VM snapshot and then perform the update
Appliance monitoring	**Automatically** managed by the Libraesva support team	Need to configure SNMP
Volumes	**Automatically** created when creating a new tenant. No configuration needed	Need to add own volumes configuration
Appliance certificate	**Automatically** configured and renewed	Need configuration and need to manage certificate renew
Need additional local disk	Just **ask to support**@libraesva.com a temporary additional disk for imports	Need to add a new disk to the VM and mount through Archiver console
Network/Firewall	**Automatically** configured with appliance	Need to be configured and managed
Data redundancy	**Automatically** offered by automatically configuring 2 volumes stored in 2 different physical geo-locations	Need to configure multiple volumes
